End Application:

Submarine barracuda

Body Material:

Stainless steel

Product Name:

Direct valve

Special Features:

Control device: non-adjustable; opening pressure: 50 psi (3.5 bar); seal material: viton; material: stainless steel, passivated; cavity: t-17a; size: 3; capacity: 380l/min; leak 24cst (100 sus): 0.7cc/min; volume required to control: 4.1cc; area ratio between a3 and a1: 1.8/1; area ratio between a3 and a2: 2.25/1; nozzle diameter: 0.8mm; hexagon valve dimension: 31.8mm; valve torque: 203-217 nm; seal kit - cartridge: buna: 990-017-002, polyurethane: 990-017-002, viton: 990-017-006; parts by weight: 0.50kg

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A506h0
