Body Material:

Aluminum alloy

Tempurature Rating:

-4.00 degrees fahrenheit and 176.00 degrees fahrenheit

Shaft Rotation Direction:

Clockwise

Pressure Rating:

Between 2.9 pounds per square inch and 120.0 pounds per square inch

Integral Valve Operation Method:

Pneumatic

Product Name:

Rack and pinion pneumatic actuator;

Special Features:

Spring return, spring set 40;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A34200
