Maximum Operating Temp:

180.00 degrees fahrenheit single response

End Application:

R20tmmasp-001

Valve Operation Method:

Solenoid

Inlet/outlet Operating Pressure Differential:

200.00 pounds per square inch

Product Name:

Solenoid control valve

Material:

Copper alloy body

Material Specification:

Astm b283 assn standard single material response body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A046b0
