**Maximum Operating Temp:**

180.00 degrees fahrenheit single response

**End Application:**

R20tmmasp-001

**Valve Operation Method:**

Solenoid

**Inlet/outlet Operating Pressure Differential:**

200.00 pounds per square inch

**Product Name:**

Solenoid control valve

**Material:**

Copper alloy body

**Material Specification:**

Astm b283 assn standard single material response body

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A046b0
