Flange Diameter:

7.500 inches

Bonnet Type:

Outside screw-yoke

Bonnet Attachment Method:

Bolted

Bolt Hole Quantity:

4

Valve Operation Method:

Manual

Connection Type:

Flange, round w/holes

Features Provided:

Bonnet packing

Valve Size:

3.000 inches

Stem Type:

Rising

Face To Face Distance:

8.000 inches

Flange Face Design:

Plain

Inlet Relationship With Outlet:

Identical

Material:

Iron body

Material Specification:

Astmfea000 assn standard single material response body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A500a0
