Thread Direction:

Right-hand all ends

Flow Control Device:

Poppet

Disk Loading Method:

Spring

Valve Discharge Flow Rate:

113.0 cubic feet per minute

Connection Style:

Plain (pipe) all ends

Valve Operation Method:

Automatic

Connection Type:

Threaded external pipe all ends

Features Provided:

Pressure tight outlet side

Thread Size:

0.250 inches all ends

Opening Pressure Setting:

210.0 pounds per square inch

Material:

Copper alloy

Style Designator:

Angle

Thread Series Designator:

Npt all ends

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
