**Flow Control Device:**

Disk

**Bonnet Type:**

Outside screw-yoke

**Bonnet Attachment Method:**

Bolted

**Valve Operation Method:**

Manual

**Flange Shape:**

Round 1st end

**Connection Type:**

Flange 1st end

**Features Provided:**

Bonnet packing

**Outside Diameter:**

7.687 inches 1st end

**Face To Face Distance:**

12.000 inches

**First Connection Face To Centerline Distance:**

6.000 inches

**Flange Face Design:**

Raised straight 1st end

**Style Designator:**

Cross flanged ends

**Reference Number Differentiating Characteristics:**

As modified by cross valve size 4 in.Undrilled flange

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A046b0
