Flange Diameter:

11.000 inches

Bonnet Type:

Outside screw-yoke

Bonnet Attachment Method:

Bolted

Bolt Hole Quantity:

8

Valve Operation Method:

Manual

Connection Type:

Flange, round w/holes

Features Provided:

Bonnet packing

Stem Type:

Rising

Face To Face Distance:

10.500 inches

Flange Face Design:

Raised

Special Features:

Max operating pressure 150 psi; max operating temp 500 degrees f; 1st end: 1.000 in. Thk; raised face ht 0.062 in., raised face diameter 8.500 in.

Material:

Steel stem

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A500a0
