Special Features:

Aluminum alloy body, poppet type flow control device of stainless steel material, outlet port, 3/4-16 unjf 3b thd size per ms33649, inlet port, 9/16-1b unjf 3b thd size per ms33649, valve controls pressure to 4 psi porm 0.5 with inlet pressure range of 14 to 110 psi and flows of 0.02 to 0.50 lb per min, media is air at m 65 to p 160 degrees f temp range, with relief valve to prevent pressure from exceeding 7 psi

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A21100
