| Pipe Size Accommodated:                       |
|---|
| 0.750 inches all ends                         |
| Flow Control Device:                          |
| Disk  |
| Disk Loading Method:                          |
| Spring  |
| Connection Style:                             |
| Socket with brazing ring (pipe) all ends      |
| Valve Operation Method:                       |
| Automatic                                     |
| Connection Type:                              |
| Unthreaded internal pipe all ends             |
| Mounting Position:                            |
| Horizontal                                    |
| Maximum Operating Pressure:                   |
| 3000.0 pounds per square inch single response |
| Special Features:                             |
| Grumman, a10 aircraft                         |
| Material:                                     |
| Stainless steel                               |
| Media For Which Designed:                     |
| Hydraulic fluid, mineral base single response |
| Style Designator:                             |
| Straight thru                                 |
| Shelf Life:                                   |
| N/a   |
| Unit Of Measure:                              |
|   |
| Demilitarization:                             |
| No  |
