Flow Control Device:

Poppet

Maximum Operating Pressure:

25.0 pounds per square inch 1st response

Material:

Aluminum alloy body

Media For Which Designed:

Fuel/oil, hydrocarbon single response

Surface Treatment Specification:

Mil-a-8625, type 2 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530c0

Mil-std (military Standard):

Mil-a-8625 spec.
