Flange Diameter:

8.500 inches

Bonnet Type:

Outside screw-yoke

Bonnet Attachment Method:

Bolted

Bolt Hole Quantity:

8

Valve Operation Method:

Manual

Connection Type:

Flange, round w/holes

Features Provided:

Bonnet packing

Valve Size:

3.000 inches

Stem Type:

Rising

Face To Face Distance:

8.500 inches

Flange Face Design:

Plain

Inlet Relationship With Outlet:

Identical

Material:

Nickel alloy disk

Reference Number Differentiating Characteristics:

Modified for salt water service

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A500a0
