**Pressure Rating:**

2400.0 pounds per square inch

**Media For Which Designed:**

Air

**Reference Number Differentiating Characteristics:**

Magnetic permeability shall be less than 1.2 before fabrication and not greater than 2.0 after fabrication as measured in a 200 oersted field

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A539y0
