Body Material:

Copper alloy

Outside Surface Treatment:

Any acceptable

Tempurature Rating:

250.0 degrees fahrenheit

Media For Which Designed:

Refrigerant 12

First End Connection Type:

Unthreaded external tube

Second End Relationship With First End:

Identical

End Connection Quantity:

2

Valve Expansion Control Type:

Pressure

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07100
