End Application:

Sterer engineering and manufacturing co pressure snubber no.8195-20

General Description:

Material nylon plastic, hexagon shaped, width across flat 0.437 in., height 0.340 in., base bored to 0.060 in depth w/0.375 in. Dia, face bored to 0.125 in. Depth w/0.046 in diameter and countersunk at 45.0 degrees angle, face precision grooved as component of restrictor orifice, media hydraulic fluid

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
