End Application:

E-3a awacs

Product Name:

Indicator, reglus universal angle

Dial Outside Diameter:

2.500 inches

Special Features:

Used to measure angular travel of the valve butterfly to the open position, range reading 0 to 360 deg, resolution and accuracy 0.500 deg, clamping capaci type 0 to 1.875 in

Supplementary Features:

Mounting facility type and quantity: clamp 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A534b0
