Mounting Method:

Flange

Capillary Tube Length:

120.000 inches

End Application:

Expansion valve; alco controls, models tel, til, thl, tu, and tv

Usage Design:

Controls flow, and regulates temperature in alco controls thermo-expansion valves

Thermostat Type:

Bulb

Operating Temperature Rating:

50.0 degrees fahrenheit

Product Name:

Power assembly.

Special Features:

1/4 in.Male flare external equalizer; media refrigerant r-22; 100 psi m.O.P.; furn w/gaskets and bulb clamps

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T121-c
