**Mounting Method:**

Flange

**Capillary Tube Length:**

120.000 inches

**End Application:**

Expansion valve; alco controls, models tel, til, thl, tu, and tv

**Usage Design:**

Controls flow, and regulates temperature in alco controls thermo-expansion valves

**Thermostat Type:**

Bulb

**Operating Temperature Rating:**

50.0 degrees fahrenheit

**Product Name:**

Power assembly.

**Special Features:**

1/4 in.Male flare external equalizer; media refrigerant r-22; 100 psi m.O.P.; furn w/gaskets and bulb clamps

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T121-c
