**Body Material:**

Brass or bronze or steel, corrosion resisting

**Body Style:**

Single connection straight thru

**Tempurature Rating:**

284.0 degrees fahrenheit

**Media For Which Designed:**

Hydrocarbon fuels and oils

**Flow Control Device:**

Cone, top guided

**Opening Pressure Setting:**

70.0 pounds per square inch

**Tempurature Adjustability:**

Not adjustable

**Tempurature Control Device Type:**

Thermostatic

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A07100
