General Description:

No

Material body zinc plated steel flow control diaphragm pitrile synthetic rubber w/bottom diapragm of 80.0 durometer bardness: media air:

material body zinc plated steer now control diaphragm mitne synthetic rubber wibottom diaphragm of oc.0 duronteter naturess, media air,
working pressure 125.0 psi; 2 working ports; threaded internal pipe; npt 0.250-18; 1 pilot port; threaded internal pipe; npt 0.125-27;
normally closed
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
