Flange Diameter:

0.872 inches

Body Outside Diameter:

0.663 inches

Body Inside Diameter:

0.312 inches

End Application:

Relief valve, caterpillar no. 9j630

Flange Seat To Disk End Height:

0.188 inches

Under Flange Height:

0.500 inches

Seat Angle In Deg:

45.000

Seating Surface Shape:

Angular

Special Features:

Double flanged 0.182 in. Between flanges

Material:

Steel

Style Designator:

Plain flanged

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A15500
