Body Material:

Aluminum alloy, 2024

Body Style:

Straight through give "adqm" and "adqn" only if flanged both ends

First End Connection Type:

Threaded internal hose

First End Style Designator:

Optional end

First End Inside Diameter Hose Accommodated:

0.750 inches

First End Thread Direction:

Right-hand

Second End Relationship With First End:

Identical

Flow Control Device:

Poppet

End Connection Quantity:

2

First End Thread Pitch Diameters:

+0.7094/+0.7159 inches

Adjustable Pressure Range:

+500.0/+5000.0 pounds per square inch

Valve Discharge Flow Rate:

8.0 gallons per minute

Tempurature Adjustability:

Adjustable

Tempurature Control Device Type:

Thermostatic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07100
