Thread Direction:

Right-hand all ends

Flow Control Device:

Poppet

Renewable Seat Ring Type:

Pressed-in

End Application:

Used in bilge and ballast pump onboard 140 ft wtgb coast guard vessels

Connection Style:

Plain, optional end (pipe) all ends

Valve Operation Method:

Automatic

Connection Type:

Threaded internal pipe all ends

Mounting Position:

Horizontal

Thread Size:

2.000 inches all ends

Material:

Aluminum alloy

Style Designator:

Straight thru

Thread Series Designator:

Npt all ends

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
