Body Material:

Aluminum

Body Style:

Straight thru

Tempurature Rating:

-20.0 degrees celsius

First End Connection Type:

Threaded internal tube

First End Style Designator:

Plain

First End Outside Diameter Tube Accommodated:

2.000 inches

Flow Control Device:

Piston, free type

End Connection Quantity:

1

Adjustable Pressure Range:

+20.0/+200.0 pounds per square inch

Valve Discharge Flow Rate:

600.0 gallons per minute

Tempurature Adjustability:

Adjustable

Tempurature Control Device Type:

Thermostatic

Fsc Application Data:

Hydraulic test stand

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07100
