| Flange Diameter:  |
|---|
| 5.562 inches  |
| Bonnet Type:  |
| Inside screw  |
| Bonnet Attachment Method:   |
| Bolted  |
| Bolt Hole Quantity:   |
| 6   |
| Valve Operation Method:   |
| Manual  |
| Connection Type:  |
| Flange, round w/holes   |
| Valve Size:   |
| 2.000 inches  |
| Stem Type:  |
| Rising  |
| Face To Face Distance:  |
|   |
| 5.750 inches  |
| 5.750 inches Inlet Relationship With Outlet:  |
|   |
| Inlet Relationship With Outlet:   |
| Inlet Relationship With Outlet: Identical   |
| Inlet Relationship With Outlet: Identical Material:   |
| Inlet Relationship With Outlet: Identical Material: Copper body   |
| Inlet Relationship With Outlet: Identical Material: Copper body Shelf Life:   |
| Inlet Relationship With Outlet: Identical Material: Copper body Shelf Life: N/a   |
| Inlet Relationship With Outlet: Identical Material: Copper body Shelf Life: N/a Unit Of Measure:                            |
| Inlet Relationship With Outlet: Identical Material: Copper body Shelf Life: N/a Unit Of Measure:                            |
| Inlet Relationship With Outlet: Identical Material: Copper body Shelf Life: N/a Unit Of Measure: Demilitarization:          |
| Inlet Relationship With Outlet: Identical Material: Copper body Shelf Life: N/a Unit Of Measure: Demilitarization: No       |
| Inlet Relationship With Outlet: Identical Material: Copper body Shelf Life: N/a Unit Of Measure: Demilitarization: No Fiig: |
