Valve Operation Method:

Automatic

Mounting Position:

Horizontal or vertical

Special Features:

Bone end flange connection type; flange shape: round with holes; outside diameter: 1.5mm; thickness: 5.50 mm; bolt hole quantity: 8; diameter of bolt hole: 3.0 mm; flange face design: plain

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-225/9 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 3 military specification single treatment response

Style Designator:

Straight thru

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530b0

Mil-std (military Standard):

Mil-a-8625 spec.
