Flow Control Device:

Disk

Valve Operation Method:

Automatic

Valve Size:

3.000 inches

Criticality Code Justification:

Zzzy

Thickness:

0.500 inches 1st end

First Connection Face To Centerline Distance:

5.500 inches

Material:

Nickel alloy body lining

Reference Number Differentiating Characteristics:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A046b0
