Flow Control Device:

Needle

Bonnet Type:

Inside screw

Bonnet Attachment Method:

Threaded

Renewable Seat Ring Type:

Pressed-in

Thread Size:

0.438 inches 1st end

Criticality Code Justification:

Zzzy

Thread Series Designator:

Unjf 1st end

Reference Number Differentiating Characteristics:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A046b0
