| Flow Control Device:                         |
|--|
| Disk   |
| Bolt Hole Quantity:                          |
| 6 all ends                                   |
| Maximum Operating Temp:                      |
| 180.0 degrees fahrenheit single response     |
| Valve Operation Method:                      |
| Automatic                                    |
| Flange Shape:                                |
| Round with holes all ends                    |
| Connection Type:                             |
| Flange all ends                              |
| Mounting Position:                           |
| Horizontal or vertical                       |
| Valve Size:                                  |
| 1.500 inches                                 |
| Maximum Operating Pressure:                  |
| 250.0 pounds per square inch single response |
| Outside Diameter:                            |
| 5.060 inches all ends                        |
| Face To Face Distance:                       |
| 8.750 inches                                 |
| Thickness:                                   |
| 0.880 inches all ends                        |
| Bolt Hole Diameter:                          |
| 0.562 inches all ends                        |
| Bolt Circle Diameter:                        |
| 3.938 inches all ends                        |
| Flange Face Design:                          |
| Plain all ends                               |
| Material:                                    |
| Rubber flow control device                   |
| Style Designator:                            |
| Straight through flanged ends                |
| Shelf Life:                                  |
| N/a  |
| Unit Of Measure:                             |
|  |
| Demilitarization:                            |
| No   |
