Criticality Code Justification:

Zzzy

General Description:

Body bronze alloy, seat nickle-copper alloy, disc nickle-copper alloy w/nylon face, flow control device spring loaded disc, externally threaded for mounting into valve manifold, external boss fitting, un 2.000-12, left handthread 2a fit, hex wrenching feature 2.375 in. Across flat, max working pressure 6000.0 psi temperture range minus20.0 f min/plus 225.0 f max, media water-oil-gas

Reference Number Differentiating Characteristics:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
