Bonnet Type:

Packing retaining

Valve Operation Method:

Manual

Mounting Position:

Horizontal or vertical

Criticality Code Justification:

Zzzy

Material:

Copper alloy body

Style Designator:

Angle

Supplementary Features:

Flow control device: needle

Reference Number Differentiating Characteristics:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A530b0
