Thread Direction:

Right-hand all ends

Flow Control Device:

O-ring, dilating

Connection Style:

G9 plain, optional en (pipe) all ends

Valve Operation Method:

Manual

Connection Type:

Threaded internal hose all ends

Thread Size:

0.750 inches all ends

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-225/3 military standard single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 11, class 1 mfr ref single treatment response

Style Designator:

Err-090

Thread Series Designator:

Npsm all ends

Specification Data:

08992-ta333-1267 manufacturers standard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A046b0

Mil-std (military Standard):

Mil-a-8625 spec.
