Body Material:

Steel, corrosion resisting

Outside Surface Treatment:

Nickel plated

Body Style:

Straight thru

First End Connection Type:

Threaded internal tube

First End Outside Diameter Tube Accommodated:

0.375 inches

Second End Relationship With First End:

Identical

End Connection Quantity:

2

Capillary Tube Length:

24.000 inches

Bulb Length:

1.500 inches

Bulb Diameter:

1.500 inches

Bulb Material:

Brass

Temperature Adjustability:

Adjustable

Thermostatic Element:

Liquid immersion type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A21100
