Flow Control Device:

Disk

Bolt Hole Quantity:

12 all ends

Valve Operation Method:

Automatic

Flange Shape:

Round with holes all ends

Connection Type:

Flange all ends

Mounting Position:

Horizontal

Outside Diameter:

18.000 inches all ends

Thickness:

0.750 inches all ends

Bolt Hole Diameter:

0.531 inches all ends

Bolt Circle Diameter:

15.250 inches all ends

Flange Face Design:

Plain all ends

Special Features:

With 1/8 in. Radius beaded edge, 1 in. Thk flange edge

Material:

Steel seat

Style Designator:

Straight thru

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A530b0
