Thread Direction:

Right-hand 1st end

Flow Control Device:

Disk

Maximum Operating Temp:

180.0 degrees fahrenheit single response

Connection Style:

G9 plain, optional en (pipe) 1st end

Valve Operation Method:

Automatic

Connection Type:

Threaded internal pipe 1st end

Thread Size:

0.500 inches 1st end

Material:

Rubber butadiene-acrylonitrile class nbr flow control device

Media For Which Designed:

Water, fresh single response

Style Designator:

Err-090

Thread Series Designator:

Npt 1st end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
