Body Material:

Steel

Body Style:

Straight thru

First End Connection Type:

Plain face flange

First End Style Designator:

Plain

Second End Relationship With First End:

Identical

Seat Material:

Steel, corrosion resisting

Flow Control Device:

Piston, spring loaded

End Connection Quantity:

2

Special Features:

Valve size 0.750 in.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A21100
