| Pipe Size Accommodated:                  |
|--|
| 1.000 inches 1st end                     |
| Flow Control Device:                     |
| Disk                                     |
| Maximum Operating Temp:                  |
| 250.0 degrees fahrenheit single response |
| Connection Style:                        |
| Socket all ends                          |
| Valve Operation Method:                  |
| Manual                                   |
| Connection Type:                         |
| Unthreaded external pipe all ends        |
| Material:                                |
| Copper alloy 715 body                    |
| Media For Which Designed:                |
| Water, salt single response              |
| Shelf Life:                              |
| N/a                                      |
| Unit Of Measure:                         |
|  |
| Demilitarization:                        |
| No                                       |
| Fiig:                                    |
| A046b0                                   |
