Body Material:

Steel, mil-s-15083, class cw

Media For Which Designed:

Air

Seat Material:

Steel

Flow Control Device:

Piston, spring loaded

Flow Control Device Material:

Aluminum bronze

Renewable Seat Ring Type:

Retaining ring

Valve Loading Method:

Spring

Remote Actuation Method:

Piston

Filter:

Not included

End Application:

Western gear corporation 46190r1 main reduction gear assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A21100
