Body Material:

Bronze

First End Flange Outside Diameter:

0.563 inches

Second End Flange Outside Diameter:

0.563 inches

Outside Surface Treatment:

Any acceptable

First End Connection Type:

Plain face flange

First End Style Designator:

Plain

First End Flange Shape Style:

Round w/ bolt holes

First End Bolt Hole Quantity:

8

First End Bolt Circle Diameter:

5.500 inches

Second End Relationship With First End:

Identical

Second End Flange Shape Style:

Round w/ bolt holes

Second End Bolt Hole Quantity:

8

Second End Bolt Hole Diameter:

6.500 inches

Second End Bolt Circle Diameter:

5.500 inches

Face To Face Distance:

8.375 inches

Flow Control Device Material:

Any acceptable

End Connection Quantity:

2

Tempurature Adjustability:

Not adjustable

Tempurature Rating:

Between 70.0 degrees fahrenheit and 76.0 degrees fahrenheit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A21100
