**Body Material:**

Bronze

**First End Flange Outside Diameter:**

0.563 inches

**Second End Flange Outside Diameter:**

0.563 inches

**Outside Surface Treatment:**

Any acceptable

**First End Connection Type:**

Plain face flange

**First End Style Designator:**

Plain

**First End Flange Shape Style:**

Round w/ bolt holes

**First End Bolt Hole Quantity:**

8

**First End Bolt Circle Diameter:**

5.500 inches

**Second End Relationship With First End:**

Identical

**Second End Flange Shape Style:**

Round w/ bolt holes

**Second End Bolt Hole Quantity:**

8

**Second End Bolt Hole Diameter:**

6.500 inches

**Second End Bolt Circle Diameter:**

5.500 inches

**Face To Face Distance:**

8.375 inches

**Flow Control Device Material:**

Any acceptable

**End Connection Quantity:**

2

**Temperature Adjustability:**

Not adjustable

**Temperature Rating:**

Between 70.0 degrees fahrenheit and 76.0 degrees fahrenheit

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A21100
