Flow Control Device:

Poppet

Bonnet Type:

Exposed spring

Bonnet Attachment Method:

Bolted

Valve Operation Method:

Manual

Connection Type:

Flange all ends

Special Features:

Item has poppet instead of disc

Material:

Stainless steel body

Style Designator:

Straight thru

Reference Number Differentiating Characteristics:

Magnetic permeability shall not exceed 2.0 after fabrication

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A530b0
