Fluid Pressure Regulating Valve - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4820-01-325-1454

Body Material:
Nickel and aluminum and bronze
Media For Which Designed:
Air and nitrogen, gaseous
End Application:
Manifold 5vl 3000psi
Tempurature Rating:
Between 28.0 degrees fahrenheit and 128.0 degrees fahrenheit
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No

Fiig: A21100
