Flow Control Device:

Poppet

Bolt Hole Quantity:

4 all ends

Valve Operation Method:

Automatic

Flange Shape:

Round with holes all ends

Connection Type:

Flange all ends

Mounting Position:

Horizontal or vertical

Valve Size:

1.250 inches

First Connection Face To Centerline Distance:

2.625 inches

Second Connection Face To Centerline Distance:

4.250 inches

Flange Face Design:

Plain all ends

Material:

Steel body

Style Designator:

Angle flanged ends

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530b0
