End Application:

Mk93 mod0 fleet exercise system, torpedo mk50

Cross-sectional Shape:

Concave

Burst Pressure:

5200.0 pressure pounds per square inch absolute

Disk Material:

Nickel alloy

Disk Size:

1.250 inches

Special Features:

Burst disc assembly, safety-co2 container; thickness: 0.630 in.Min, 0.645 in.Max

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A512v0
