Flow Control Device:

Piston

Bolt Hole Quantity:

8 all ends

Valve Operation Method:

Automatic

Flange Shape:

Round with holes all ends

Connection Type:

Flange all ends

Opening Pressure Setting:

90.0 pounds per square inch

Outside Diameter:

6.500 inches all ends

Thickness:

0.880 inches all ends

Bolt Hole Diameter:

0.750 inches all ends

Bolt Circle Diameter:

5.000 inches all ends

Flange Face Design:

Plain all ends

Material:

Stainless steel flow control device

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A046b0
