End Application:

Aircraft model f/a-18

Operating Temperature Rating:

Between -65.0 degrees fahrenheit and 275.0 degrees fahrenheit

Port Quantity:

4

Port Diameter:

0.390 inches

Supply Pressure:

4000.0 pounds per square inch

Special Features:

O-ring material; buna n., fluid petroleum base, 60 to 450 ssu at 100 degrees f, input power; resistance 200 Ohms per coil, inductance 0.72 henries per coil (approx.) single coil current 20 ma for full flow, electrical connector bendix pigmy pco2e-8-4p, o-ring section 0.070 in.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A508u0
