End Application:

C-17a acft

Component Quantity:

5

Nonsupply Items And Quantities:

0mls1, 17g913015, unseating tool, filler adapter

Valve Type For Which Designed:

Fluid pressure regulating

Special Features:

Manufacturers suggested name is servicing kit, regulator - inflation valve; consists of the following items, carrying case with foam insert, charging adapter and filler valve unseating tool, and id plate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505x0
