Fluid Pressure Regulating Valve - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4820-01-375-2476

Rody	/ Mate	rial:
DOUV	, iviate	#IIaI.

Aluminum alloy, qq-a-200/3, alloy 2024, t3510

Media For Which Designed:

Hydraulic fluid, mil-h-5606

End Application:

Special aircraft and engine tool and support equipment and parts

Tempurature Rating:

Between 40.0 degrees fahrenheit and 160.0 degrees fahrenheit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A21100
