Valve Operation Method:

Air

Opening Pressure Setting:

450.0 pounds per square inch

Special Features:

90 degrees angle; male x-flare; inlet 0.375 npt; outlet 0.500 sae; port 0.166

Material:

Copper alloy bodyplastic polytetrafluoroethylene body lining

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A046b0
