Overall Length:

3.218 inches

End Application:

Pacer dawn

Valve Type For Which Designed:

Shuttle

Valve Design Control Activity:

00624

Special Features:

Finish: electroless nickel and polytetrafluoroethylene composite coating; thread data one end, 1.625-16un2a; next assembly ae85889z and ae85890z

Material:

Aluminum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A512t0
